

Columbus Park of Roses

2025 Tree List

This list, alphabetized by each tree's botanical name, includes most trees throughout the CPOR. To find a particular tree in the gardens, you can cross-reference the listed location with the CPOR map at the bottom of this posting. The map includes the names of key garden areas. The same map is printed in free CPOR brochures located in dispensers on several kiosks throughout the gardens. Most trees have a small label stake indicating their botanical and common names. Enjoy the gardens!
